

Day 5: Tin Can Constellations

Supplies:

- Clean, empty can
- Large nails, or Phillip's head screwdriver
- A hammer
- Light source (tealight candle, battery-operated candle, flashlight, etc)
- Optional: black paint

Description/Directions:

- If you are planning to paint the can, paint it as your first step and let it dry.
- Use a pencil to draw dots (stars) on the can, you can draw real constellations, make up your own constellations, or you can make some other design.
- With adult help/supervision, take your screwdriver or nail and carefully hammer it through all of the stars.
- Put your light source inside the can, turn your other lights off, and enjoy your constellation!
